

PLANTATION PROGRAM

As part of its annual plantation program, Pointe-Claire offers to its residents the opportunity to request and obtain a tree free of charge, planted fronting their property, on the portion of land belonging to the City. As quantities are limited, we suggest registering your requests for plantation as soon as possible, by calling the Parks and Horticultural Division of the Public Works Department at (514) 630-1241.

Except for certain proscribed species, the City of Pointe-Claire is relatively flexible in the choice of the plantations. A consultation with a city specialist will help you to make a wise choice for a tree adapted to your residential environment. Planting the good tree at the good place is essential to ensure its good development.

A catalogue with different available tree species is accessible at our Urban Forestry office at the Parks and Horticulture Division at 94 Douglas-Shand, 2nd floor. You can also consult the available tree species on line by clicking on the following link : «catalogue». (PDF. format)
